## BEAUTY GAZETTE

### *What to Put in Your Hair When—and How* **STYLING PRODUCTS DECODED**

Where once there was only Dippity-Do to keep a hairstyle in check, there are now drugstore shelves full of balm, clay, paste, wax, and gum. The options can be confusing. (Gum? In your hair? On purpose?) So we enlisted Erin Anderson, VO5 style consultant, to help clarify the field.

OUR HOLD RATING SYSTEM: FROM 1 HELMET (FEELS BARELY THERE) TO 10 (UNMOVABLE)

**KEUNE BLEND CLAY, \$20**

How to use it: Take a tiny bit of clay, warm it between your fingers, and pull it through the ends of dry hair to get a chunky, pieceny look.

HOLD RATING: 3
