CUT & STYLE SECRETS

• **LAYERED LOCKS** This look is incredibly versatile and feminine and can be flattering at every age, which is why so many Hollywood leading ladies choose it.

Get the Cut: If your hair is fine, add long, blended layers and keep the length above your breast line to maintain volume and body. For hair that is thick and curly, go the Sarah Jessica Parker route and “ask for face-framing layers that start at your collarbone and long, simple ones throughout,” advises stylist Adir Abergel of Frédéric Fekkai. If your face is heart shaped, like Kerry Washington’s, wearing bangs can really open it up. “Cut them straight across, not angled,” says Abergel.

Style Tips: Soft Waves “For polished curls like Kate Winslet’s, use products that enhance them, like Tigi Curls Rock shampoo [\$11.50] and conditioner [\$14.50],” says Lati Domi, artistic director of Toni & Guy/Tigi. Smooth frizz with Kim Vo Dry Serum (\$55) and let your hair dry as much as possible before blow-drying to prevent heat damage. Take a 1¼-inch curling iron like T3 Pro EverTwirl (\$89) and wrap sections around the outside of the barrel to avoid creating a bend. For a beachier effect, spritz KMS California Sea Salt Spray (\$15.95) into your hand and scrunch it in.

Style Tips: Sleek & Straight Use Tresemmé Thermal Creations Straightening Gel (\$4.49) on damp hair and dry it with a round brush. Smooth out kinks with an FHI Do More styling iron (\$120).
