## T-COUNTY - CONTEMPORARY URBAN MEN'S CLOTHING LINE WITH A RUGGED EDGE

T-County is a mix of country and city chic for any man trying to achieve that casual, upscale, always trendy 'just rolled out of bed' look. Specializing in details on shirt collars, sleeves, and belt loops, these elements add a sharp touch of unique elegance to any button down woven shirt.

For their Spring 2007 collection, T-County is doing a different take on the standard military jacket. The slim jacket is still the criterion military green, but T-County adds its own flair by augmenting it with colorful buttons and contrast stitching along the button holes. A standard blue checkered shirt becomes a svelte clubbing shirt when the sleeves are rolled up to reveal a hint of floral lining. T-County's prints are kitschy, wild, attention-grabbing yet extremely classy.

The look T-County achieves is European province mixed with New York street and a hint of the wild wild west. The line can be found at select department stores and boutiques. T-County can be found online at [Revolve Clothing](#).
