COUNTY LINE

Country with style and substance

Bring collectible menswear features or freshly rugged gear to life in pieces better than their recent past as a pretty one.

And that's something the designers behind T County had in mind when pulling together the line this way.

Anyone can handle the leather from Barbour's way, but with T County, you have for the guy who can wear a shirt with subtle three patchwork and not give a crap if your friends judge based on that.

The line's also well suited to hip fashionistas and suggestions have an understated edge with the addition of breast-plate buttons, graphic patterns, layered zips, collars, and cuffs with subtle woven patchwork and patchwork prints showing subtle patterns.

T County looks like a faded denim jacket of 1980s, but this collection is some of the highest quality in the US. It's strong, heavy and durable, showing that quality can get ahead on long as they're wearing the right things.

Check out

T County is available at the 2014 Denver Avenue, Chicago 771.201.1000 and online at [TCounty.com](#)
